

ACR ResQLink™

406 MHz GPS
Personal Locator Beacon

Your Best Last Chance

ACR ResQLink™

406 MHz GPS Personal Locator Beacon
with Optional 406Link.com Service

At 4.6 oz, the ResQLink™ weighs less than a couple of PowerBars®. And topping at just 3.9 inches, it's smaller than the cell phone in your pocket. Small and mighty, the ResQLink™ is a full-powered, GPS-enabled rescue beacon designed for anglers, pilots and back country sportsmen.

With three levels of integrated signal technology —GPS positioning, a powerful 406 MHz signal, and 121.5 MHz homing capability — the ResQLink™ quickly and accurately relays your position to a worldwide network of search and rescue satellites. A built-in strobe light provides visibility during night rescues.

PLBs have been proven tried and true in some of the world's most remote locations and treacherous conditions. Just ask the 400 or so pilots, boaters and back country explorers who were saved by a PLB during a rigorous test program in Alaska. Based in large part on the test results, the federal government approved use of PLBs in the United States in 2003.

Even in extreme conditions and situations, the ResQLink activates easily. Just deploy the antenna and press the ON button. With its powerful 66 channel GPS, the ResQLink™ guides rescuers to within 100 meters or less of your position. And, in the continental U.S.,

search and rescue personnel are typically alerted of your position in as little as five minutes with a GPS-enabled PLB such as the ResQLink™.

Two built-in tests allow you to routinely verify that the ResQLink™ is functioning and ready for use — with the push of a button, you can easily test internal electronics and GPS functionality.

Extend the functionality of your ResQLink™ with

optional subscription service.

- Small Size, Lightweight
- Super Bright LED Strobe
- On Board 66 Channel GPS
- Self-Test and GPS Test Features
- Typical Performance of 30 Hrs.
- Non-Hazmat Battery
- Wrist Lanyard
- Made in the U.S.A.

Product Number	2880
Model Number	PLB-375
Size	1.3 x 1.9 x 3.9" (3.3 x 4.8 x 9.9 cm)
Weight	4.6 oz (130 g)
Battery, Class	Class 2 (non-hazmat) lithium batteries
Battery, Replacement Interval	Replacement due six (6) years from date of manufacture or five (5) years after beacon is placed into service, whichever is first, or after emergency use
Battery, Operational Life	Exceeds 24 Hours @ -4°F (-20°C)
Battery, Storage	-40°F to +158°F (-40°C to +70°C)
Material	Engineered polycarbonate blend
Color	ACR-treuse™ (high visibility yellow)
Activation	Manual
Operation	2 steps: deploy antenna, press ON button. Give clear view of sky
Waterproof	16.40 ft (5 m) @ 1 hr., 33 ft (10 m) @ 10 min. Factory tested @ 70°F, exceeds RTCM waterproof requirements
Accessories	P/N 9521 Flotation Pouch
Approvals	Cospas-Sarsat, FCC. Pending: Canada, R&TTE
Limited Warranty	5 years
Lead Free	Yes

P/N 9521 Optional Flotation Pouch

It is mandatory that you register your PLB. It's fast, easy and free www.beaconregistration.noaa.gov. When activated, the unique identification code in your PLB is linked to the registration database. This way authorities can retrieve valuable information about you and your trip.

The ResQLink™ is a satellite signaling device of last resort, for use when all other means of self rescue have been exhausted, where the situation is grave and imminent loss of life, limb, eyesight, or valuable property will occur without assistance.
